Embrace - Engage - Educate

Our mission in the Egg Harbor Township School District is to embrace families and their students to provide a safe, rigorous, and relevant learning experience while students are engaged and educated to become responsible for their own learning.

District Learning Goals for 2023-2024

To build a culture and climate that embraces, engages and educates individual students and their learning needs.

Improve Student Achievement – Provide Literacy for ALL; meet the social and emotional learning needs of individuals; foster critical thinking, create student-centered lessons, relevant and innovative learning experiences; infuse STREAM Education and new technologies into the classroom learning experiences.

Support Climate, Culture and #EHTPride – Administrators, teachers, students, parents and community members will support positive learning environments, where all are recognized and rewarded for achievement, progress, good character, work ethic and a respect for diversity. We will continue to focus on and expand upon cultural proficiency, student agency, and ensuring equity in our schools.

PARENT TRANSPORTATION

Arrival

Our school day begins at 9:15 AM for all K, 1st, 2nd, and 3rd grade students.

We will continue curbside drop-off for Grades K-3.

If you choose to provide your own transportation to school, and arrive prior to 9:15 AM, please wait with your child in the car until 9:10. Parents should not leave children unattended.

Late Arrival

If your child will arrive late to school, you **MUST** come to the Main Office and sign your child in to school. Students are not permitted to be dropped off outside the building. **SAFETY FIRST!**

Early Dismissal

If your child must be excused from school earlier than usual, a note should be sent in to let the teacher know the time your child will be picked up, and the person who will be picking them up. If an emergency arises where this is not possible, you must call the Main Office to provide the information needed. You are required to sign your child out in the main office.

Picking up a Student

NO CHILD WILL BE RELEASED TO ANYONE OTHER THAN THOSE INDIVIDUALS LISTED IN THE INFINITE CAMPUS DATABASE, OR IDENTIFIED IN A NOTE OR PHONE CALL FROM THE PARENT. ALSO, NO CHILD WILL BE RELEASED TO AN INDIVIDUAL UNLESS THE INDIVIDUAL HAS PROPER IDENTIFICATION AND A DRIVER'S LICENSE EACH AND EVERY TIME THEY ARE PICKED UP.

Please note that when picking up your children at dismissal you must arrive by 3:30 PM. (Half day 1:30PM)

LUNCH

Hot lunch, including milk, is provided at each building for K, 1st, 2nd and 3rd grade students. A menu for each month will be available on the district website at: eht.k12.nj.us under "District Services," "Departments," and then click on "Dining Services."

A computerized lunch system is in effect called **My School Bucks**. This can be accessed from our school district's website (www.eht.k12.nj.us) or by going to www.Myschoolbucks.com directly. Go online, create an account and sign in. Once into the system, you may add money to your child's account using a credit card. The program will keep daily records of your child's account. No one will be able to tell the Free or Reduced Lunch student from the full paid child with this system.

If you would like to pay in advance you may do it two ways:

- (1) Place the amount in an envelope with your child's name, grade, and teacher's name on it. The cashier will collect the envelopes in the morning and deposit the money in your child's account.
- (2) Go online, create an account and sign in. Once into the system, you may add money to your child's account using a credit card. The program will keep daily records of your child's account.

Lastly, you may still pay for lunch on a daily basis if you choose.

Free lunch/breakfast forms will be sent electronically to the parents' email address on file and are also available by visiting the district website: www.eht.k12.nj.us (click on District Services, Departments, and then Dining Services). Paper forms can also be obtained in the main office should you not have access to a computer/internet.

SCHOOL NURSE

The school nurse is available for any medical concerns during school hours.

- Please inform the school nurse of any allergies or illnesses that your child has even if they do not receive medication at school.
- The nurse will conduct routine hearing and vision screenings. You will be informed if there is a need for further testing.
- Please keep children home from school if they have had a fever or illness within the last 24 hours. If a student is sent home from school with a fever or vomiting, they should not return to school the next day. Failure to do so may delay your child's recovery as well as spread infection to others.
- If a student goes to the nurse and presents with flu-like symptoms (fever, cough, etc.), the student will be sent home. If the flu-like symptoms are diagnosed by a physician as H1N1, the student is not to return to school for 7 days. Upon return to school the student must have a doctor's note and be symptom free for 48 hours. Please refer to our website for more information or call our school nurse.
- Injuries and returning to school on crutches - If a child injures himself/herself to the point of needing crutches, please note crutches cannot be used in the elementary schools. Your doctor needs to indicate on the script that a wheelchair is required and you may need to rent one as the school may not have one available. If there are any issues, the school will work with you to keep the child in school. Please contact the nurse as soon as possible.

Immunization

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, the Board of Education requires the immunization of students against certain diseases in accordance with state statute and rules of the New Jersey State Department of Health.

A student shall not knowingly be admitted or retained in school if the parent(s) or legal guardian(s) has not submitted acceptable evidence of the child's immunization, according to schedules specified in N.J.A.C. 8:57-4 Immunization of Students in School.

Medical or religious exemptions to immunizations shall be in accordance with the requirements as outlined in N.J.A.C. 8:57-4.3 and 4.4. A child may be admitted to school on a provisional basis in accordance with the requirements as outlined in N.J.A.C. 8:57-4.5.

No immunization program, other than that expressly required by the rules of the New Jersey State Department of Health or by order of the New Jersey State Commissioner of Health, may be conducted in district schools without the express approval of the Board.

N.J.S.A. 18A:40-20

N.J.S.A. 26:4-6
N.J.A.C. 8:57-4.1 et seq.

Effective September 1, 2008, four vaccines were added to the current rule on minimum immunization requirements for school attendance. Child care centers and preschools must now require proof of the pneumococcal conjugate vaccine series and an annual influenza vaccine. For six grade students, schools must now require proof of one dose of the meningococcal conjugate vaccine and one dose of the Tdap vaccine. The amended regulations are in N.J.A.C 8:57-4

All money earned by the Parents' Club will be used by the Club to sponsor many activities including Assemblies, Field Trips and Fun Day. The Principal will be the key communicator to the Parents' Club and must be informed of all activities. All parents are a member of this club and are encouraged to attend meetings. You will be notified of these meetings via the monthly school calendar.

Additional concerns are for the safety of our students and visitors.

There will be a list of approved "allergy safe" foods sent home that parents will be able to send in for birthdays and class parties. Items for parties are to remain in the Main Office for later pick-up by the homeroom teacher. **Food items that pose a potential danger to a student with an allergy will NOT be permitted. Please call the school nurse with any questions or concerns.**

Parents are asked NOT to send invitations to school for birthday parties unless the entire class is invited.

HOMEWORK

Kindergarten and 1st Grade homework will take approximately 10-20 minutes. In grades 2 and 3, homework will be approximately 20-30 minutes in duration. Homework will not be assigned on Fridays or on days before a holiday. Homework should provide practice of taught material. It should not be new learning. Homework does not include Reading every night. Reading is a separate activity. Students will be asked to read for 15-30 minutes a night, which is separate from Homework. (See Reading Section for more details.)

HOMEWORK HINTS

Homework provides the opportunity for your child to practice the lessons of the school day. It helps the teacher determine student learning and decide if any remedial or enrichment lessons need to follow. It also helps develop your child's sense of responsibility.

Here are some homework suggestions:

- Decide with your child on a regular homework time. Consistency and being included in the decision making process will aid in the development of good work habits.
- Help your child set up a homework spot – a quiet place in the house where there will be no interruptions and where reference materials will be available.
- Make yourself available to answer questions and give assistance when necessary. Your help is important so that assignments are completed and turned in to the teacher on a timely basis.
- Provide your child with an assignment notebook. This will prevent lost assignments and allow you to communicate with the teacher.

Homework is an excellent way for your child to share his/her school work and accomplishments. It should be positive for both of you.

READING

Please provide your child with a quiet place to read for 15-30 minutes per day. Reading as a shared and independent activity will encourage your child and help promote the acquisition of a robust vocabulary and increase reading skills.

- Kindergarten students should be reading too. If a Kindergarten student cannot maintain 15-30 minutes of reading, then the parent(s) should read to them for the remainder of the 15-30 minutes. (Ideally, the Kindergarten student will build up stamina and be able to sustain reading for 15-30 minutes by midyear). Early on, however, it may be necessary for the student to read sight words and sight word books with repetition partnered with a parent reading to the child for the remainder of the time.
- Ideally, each night our 1st – 3rd grade students are to read for 30 minutes. They should be reading books at their level.
- We will ask parents to sign a contract with their child and teacher as reading is critically important to their acquisition of vocabulary, comprehension and other skills.

CONFERENCES THROUGHOUT THE SCHOOL YEAR

We request that all parents call the school for an appointment if they wish to schedule a conference with the principal or a teacher.

PROMOTION POLICY

The criteria for promotion will include factors involving the child's progress academically, socially, emotionally and physically. Special education students will progress through the grade levels based on the goals and objectives written into their Individual Educational Plans (IEPS). Promotion is also related to attendance regulations. Please see the attendance policy in this handbook.

INTERVENTION AND REFERRAL SERVICES

The NJ Administrative Code mandates the establishment and implementation of a system for the delivery of intervention and referral services in each school. This building-based committee consists of representatives of our school staff, including: teachers, counselors, reading specialists, nurse, CST representatives, and administration. The committee meets regularly to review individual student concerns brought to their attention by teachers or parents. Working in cooperation with families enables this committee to better understand how to provide appropriate assistance to our students. The function of this system is to develop and implement action plans. These action plans provide for appropriate school or community interventions, as well as referrals to school or community resources. In addition, the committee provides support, guidance, and professional development to school staff. Parent communication in the development and implementation of referral services action plans is an important part of the process too. Please be certain to contact your child's teacher with concerns regarding their academic and social development. We are here to help you.

DISCIPLINE (Policy 5600)

All policies can be found on our district website, www.eht.k12.nj.us, as well as being available in the main office of each school.

The consequences of disciplinary action stated in the following chart will be imposed. In the daily operation of a school it is impossible to list every potential infraction, which may occur. Therefore, in situations where these circumstances exist, a determination by an administrator other than that listed below may be imposed.

Please note that any major infraction during the school year, particularly in the Third Trimester, may lead to the loss of end of the year activities that may include, but are not limited to: end of year picnics, school trips, award ceremonies, and Fun Day.

IT IS THE STUDENT'S RESPONSIBILITY TO BECOME FAMILIAR WITH ALL INFORMATION IN THE STUDENT HANDBOOK.

The Board of Education of the Egg Harbor Township School District will ensure the safety and welfare of students while in the school building. Each student is expected to conduct himself in an orderly fashion and act with due regard for the educational process of the school.

****The Davenport School Complex and the Swift- Slaybaugh School Complex is a Zero Tolerance School for Drugs, Alcohol, Weapons, and Violence****

The best discipline is self-discipline, and students are encouraged to think and act wisely and realize the consequences of all actions. When students fail to discipline themselves, they shall be turned over to the designated administrator, personnel or civil authority.

Teachers are primarily responsible for classroom management and discipline in their assigned classes and duties. All staff members share responsibility for supervising the behavior of students. All students must follow any reasonable request or directive by any staff member during the school day or at any school sponsored activity.

SEARCH AND SEIZURE

School authorities have the legal responsibility to maintain order and decorum in the schools, and to protect students from harming themselves or others. A principal or designee may find it necessary to search students and remove from their possession, items, which may be potentially harmful. School lockers and desks remain the property of the school district even when used by pupils. Lockers and desks are subject to administrative inspection in the interest of school safety, sanitation, discipline, and enforcement of school regulations and to search by law enforcement officials.

Consequences and appropriate remedial action for students who commit these acts may range from positive interventions up to and including suspensions or expulsion. The appropriate consequences will be consistent with the case law, Federal and State Statutes, and district/school policies and regulations. In addition, complaints may be referred to the police.

PUPIL USE OF PRIVATELY-OWNED TECHNOLOGY (Policy 2363)

The Board of Education recognizes technology is always changing and as a result of increased accessibility to technology many pupils possess technology hardware and software devices for their use during non-school hours. These privately-owned devices may be beneficial to pupils during school hours for approved educational purposes. Therefore, the Board of Education will approve pupils to use their privately-owned technology hardware and software devices under conditions outlined in this Policy.

For the purposes of this Policy, "technology" means hardware or software.

For the purposes of this Policy, "privately-owned" means technology hardware and software that is purchased, owned, and maintained by the pupil at no expense to the school or school district.

For the purposes of this Policy, "hardware" means any device that can store, access, retrieve, and/or communicate data or information. "Hardware" may include, but is not limited to, any type of: computer device; wireless telephone; electronic reader; personal digital assistant (PDAs); video broadcasting and/or recording device; or camera.

For the purposes of this Policy, "software" means any computer program(s) or related data that provide instruction for telling a computer or other hardware device what to do and how to do it.

The use of privately-owned technology by a pupil in the educational program during the school day must be approved by the school teaching staff member responsible for supervising and/or providing the pupil's instructional program. Each teaching staff member may approve a pupil's use of privately-owned technology based on the assignment(s) to the pupil. The teaching staff member may also prohibit the use of privately-owned technology for an assignment(s).

Privately-owned technology will not be given access to the school district's computer server(s) or network(s). In the event the teaching staff member approves the use of privately-owned technology to access the internet, the access must be through the use of the district wireless network. A teaching staff member who approves a pupil to use their privately-owned technology to access the internet during instructional time will provide the pupil with a list of approved internet sites the pupil is permitted to access. A pupil granted such permission must comply with school district policies and regulations regarding acceptable use of computers and technology. Any use of privately-owned technology by a pupil shall be in strict accordance with the teaching staff member's specific approval(s) and Board policies and regulations. Any violation will subject the pupil to appropriate discipline and/or grading consequences.

The intent of permitting student use of privately owned technology is to provide the opportunity for an improved educational experience for all students. Staff members must use care in permitting privately owned technology use to ensure equivalent educational opportunities are provided for all students and that no educational disparity is created by allowing student use of privately owned technology.

During non-instructional times, students in grades K-12, cell phones and other devices must be off (not on vibrate or silent) at all times during school hours, unless permission for an approved use has been explicitly granted by a faculty member or building administrator. Upon completion of the activity for which the approved use was granted, cell phones and other devices are to be turned off for the remainder of school hours. Electronic recordings are prohibited unless prior permission is granted.

The school district assumes no responsibility for any privately-owned technology brought to school by a pupil. The pupil shall be responsible for the proper operation and use of any privately-owned technology

brought to school. School staff members shall not be responsible for the effective use and/or technical support for any privately-owned technology.

The school district shall assume no responsibility for the security of, or damage to, any privately-owned technology brought to school by a pupil. Pupils are encouraged to purchase private insurance for loss, damage, or theft of any privately-owned technology the pupil brings to school.

The Board of Education recognizes that a pupil's abuse of harmful substances seriously impedes that pupil's education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take the necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances. Accordingly, the Board will establish and maintain a comprehensive substance abuse intervention, prevention, and treatment referral program in the schools of this district.

Please see the district website: www.eht.k12.nj.us for complete policy.

5338 Diabetes Management

Diabetes is a serious chronic disease and must be managed twenty-four hours a day in order to avoid the potentially life-threatening short-term consequences of blood sugar levels that are either too high or too low and the serious long-term complications of high blood sugar levels. In order to manage their diabetes, pupils must have access to the means to balance food, medications, and physical activity level while at school and at school-related activities.

The parent or legal guardian of a pupil with diabetes who seeks diabetes care for the pupil while at school shall inform the school nurse who shall develop an individualized health care plan and an individualized emergency health care plan for the pupil. The individualized health care plan will be kept on file in the nurse's office. **Please see the district website: www.eht.k12.nj.us for complete policy.**

5331 Management of Life-Threatening Allergies in Schools

The Board of Education disclaims any and all responsibility for the diagnosis and treatment of any illness, including any allergies, of any pupil. At the same time, the Board recognizes a pupil's health and safety may be contingent upon timely administration of medication duly prescribed by a physician. Any administration of medications to pupils in school will be in accordance with Policy No. 5330 and applicable State laws. **Please see the district website: www.eht.k12.nj.us for complete policy.**

5751 Sexual Harassment

The Board of Education will not tolerate sexual harassment of pupils by school employees, other pupils, or third parties. Sexual harassment of pupils is a form of prohibited sex discrimination. School district staff will investigate and resolve allegations of sexual harassment of pupils engaged in by school employees, other pupils (peers), or third parties. **Please see district website: www.eht.k12.nj.us for complete policy.**

ACCEPTABLE USE OF COMPUTER NETWORK, COMPUTERS AND RESOURCES (Policy 2361)

With the spread of internal computer networks and telecommunications throughout the modern workplace, the Board recognizes that students, teachers, administrators and other employees will shift the ways they share ideas, transmit information, and contact others. As students and staff members are connected to computer networks, their use of new tools and systems brings new responsibilities as well as opportunities. Appropriate tiered access will be assigned based on responsibility and job description as defined by the Board of Education.

The Board expects that all employees will learn to use internal networks, electronic mail and telecommunications tools when available to them and apply them daily in appropriate ways to the performance of tasks associated with their positions and assignments that pertain to the educational purposes of the school district. Students will learn to use resources as incorporated into the school curriculum.

Electronic information research skills are now fundamental to preparation of citizens and future employees during an Information Age. The Board expects that the staff will blend thoughtful use of such information throughout the curriculum and that the staff will provide guidance and instruction to students in the appropriate use of such resources.

Use of computer networks is a privilege and communications should not be considered private. Network supervision and maintenance may require review and inspection of directories or messages. Messages may sometimes be diverted accidentally to a destination other than the one intended. Privacy in these communications is not guaranteed. The district reserves the right to access stored records in cases where there is reasonable cause to expect wrong-doing or misuse of the system. Network storage areas may be treated like school lockers. Courts have ruled that old messages may be subpoenaed, and network supervisors may examine communications in order to ascertain compliance with network guidelines for acceptable use.

Telecommunications, electronic information sources and internal networked services significantly alter the information landscape for schools by opening classrooms to a broader array of resources. In the past, instructional and library media materials could usually be screened--prior to use--by committees of educators and community member's intent on subjecting all such materials to reasonable selection criteria. This Board Policy requires that all electronic materials be consistent with district-adopted guides, supporting and enriching the curriculum while taking into account the varied instructional needs, learning styles, abilities and developmental levels of the students. Telecommunications, because they may lead to any publicly available file server in the world, will open classrooms to electronic information resources which have not been screened by educators for use by students of various ages.

Staff

In order to match electronic resources as closely as possible to the approved district curriculum, district personnel will review and evaluate resources in order to offer materials, which comply with Board guidelines governing the selection of instructional materials. In this manner, staff will provide developmentally appropriate guidance to students as they make use of telecommunications and electronic information resources to conduct research and other studies related to the district curriculum.

As much as possible, access to information resources will be designed in ways, which point students to those, which have been reviewed and evaluated prior to use. While students may be able to move beyond those resources to others, which have not been evaluated by staff, they shall be provided with guidelines and lists of resources particularly suited to the learning objectives. Students may pursue electronic research independent of staff supervision only if they have been granted parental permission and have submitted all required forms. Permission is not transferable and may not be shared.

Student

Access to telecommunications will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with people throughout the world. The Board believes that the benefits to students from access in the form of information resources and opportunities for collaboration exceed the disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources.

All students will be informed by staff of their rights and responsibilities as users of the district network prior to gaining access to that network, either as an individual user or as a member of a class or group. These rights and responsibilities apply to access to the network from within the school building as well as off site.

Online Global Communications

We are pleased to offer students of the Egg Harbor Township Schools access to the district computer network to access programs and files on our internal network, for electronic mail and Internet access. Online global communications and the Internet, all students must obtain parental permission and must sign and return the form to their teacher.

Online global communications and the Internet will enable students to explore thousands of libraries, databases, and bulletin boards while exchanging messages with Internet users throughout the world. Families should be warned that some material accessible via the Internet and other electronic databases might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Egg Harbor Township Schools support and respect each family's right to decide whether or not to apply for access.

Online Global Communications and Internet Rules

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

The network is provided for students to conduct research and communicate with others for educational purposes. Access to network services is given to those who agree to act in a considerate and responsible manner. Access is a privilege, not a right. Access entails responsibility. Parent permission is required for students.

Individual users of the district computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with district standards and will honor the agreements they have signed. Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers would always be private. During school, teachers of younger students will guide them toward appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media.

Internet Safety Protection

As a condition for receipt of certain Federal funding, the school district shall be in compliance with the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries. The technology protection must block and/or filter material and visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other material or visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses access by minors to inappropriate matter on the Internet and world wide web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including "hacking" and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors' access to materials harmful to minors.

Notwithstanding blocking and/or filtering the material and visual depictions prohibited in the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act, the Board shall determine other Internet material that is inappropriate for minors.

In accordance with the provisions of the Children's Internet Protection Act, the Superintendent of Schools or designee will develop and ensure education is provided to every pupil regarding appropriate online behavior, including pupils interacting with other individuals on social networking sites and/or chat rooms, and cyberbullying awareness and response.

The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly Board meeting or during a designated special Board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361. Any changes in Policy and Regulation 2361 since the previous year's annual public hearing will also be discussed at a meeting following the annual public hearing.

The school district will certify on an annual basis, that the schools, including media centers/libraries in the district, are in compliance with the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act and the school district enforces the requirements of these Acts and this Policy.
